INNISFAIL LOSES KREMER TROPHY TO DIDSBURY

On Tuesday evening last the local curlers journeyed to Innisfail in quest of the Kremer Challenge Trophy and were successful in bringing the much prized prize home.

Julien won his game from Miller by the score of 16-7. In the 15th end Miller was lying three when Julien threw his last rock. Julien played a fast running shot, passing through a small port. When the smoke had blown over the local skip was lying 2.

McCloy lost to Freeman by the score of 13-19.

Personnel of Rinks

Didsbury: Lee, Caithness, Pitt, Julien (skip)—16.
Innisfail: McKay, Fox, Kremer, Miller (skip)—7.
Didsbury: Teskey, Sanderman, Kaufman, McCloy (skip)—13.
Innisfail: Calder, Dodd, Marks, Freeman (skip)—19.

MEETING LOCAL TUXIS BOYS GROUP

The regular weekly meeting of the Didsbury Tuxis Boys group was held Monday evening last at 7:30. A number of suggestions were put forward regarding the coming finance campaign from Feb. 9th to 18th. Since all departments of the work of the Religious Education Board are under a unified budget, one suggestion was put forth that the Boys' group together with the C.G.I.T. Girls hold a joint Father and Son - Mother and Daughter banquet, and to ask all parents of boys and girls to give a liberal contribution to the campaign.

Elmer Evans is continuing his talks on parliamentary procedure which are very interesting and instructive.

The physical period was held in

Coming Events

I. O. O. F. Valentine Novelty Dance, Didsbury Opera House. Friday, Feb. 15th. 05-3c

The Cheero branch of the Rugby W.I. are holding an entertainment and dance at the Melvin School on Feb. 22nd.

Card of Thanks

We wish to take this opportunity of thanking our many friends who indicated their respect for our dear mother and sympathy for us by their helpful kindness and by their generous floral tributes during her sickness and our bereavement.

The Mueller family.

We wish to take this means of thanking our friends and neighbors for their kindness and help shown us during the recent illness and death of our beloved mother and grandmother, also the Ladies' Aid for their flowers and the Choir.

Mr. and Mrs. John Bode and family.

BIRTHS

At the Scottish Private Hospital, Calgary, to Mr. and Mrs. Dan Campbell, nee Mae Studer, a son, Eric Eldon Studer Campbell, Tuesday, January 22nd, 1929.

Supplies of anti-toxin have been sent by the Provincial Department of Health to McMurray and Fort Smith in order to combat any possible outbreaks of diphtheria in the territory surrounding these northern posts. Smaller quantities have been sent than in the recent delivery by air to Red River settlement. 200,000 units having been sent to McMurray and 100,000 to Fort Smith for dispatch from those points to Hay River and Chipe-wyan.

The School basement, dodge ball, club snatch and some stunts were put on.

We are anxious to get a group of at least ten and would ask that all members be present at the meetings.

ANOTHER OLD-TIMER PASSES AWAY

Mrs. Marie Caroline Mueller, nee Lutz, was born in Wurttemberg, Germany, July 31, 1856, and passed away in peaceful sleep to her eternal home on Wednesday morning January 22, 1929 in her 73rd year.

Her youth was spent in the land of her birth, where she was also married to Mr. W. G. Mueller, after which they together soon migrated to America, settling for a short time in Massachusetts. Then they came across to Canada, making their home in Hespeler, Ontario for 17 years. In 1901 they left Hespeler with a view to take up farming in the Canadian north-west. Didsbury was chosen and here Mr. and Mrs. Mueller resided until death.

Their married life was blessed with ten children. Two sons, Paul and Adolph, one daughter, Julia, and the father preceded the mother in death. Those left to mourn her loss are: Mrs. J. A. Gilmore, Lethbridge; Messrs. R. W. and O. F., Ghost Pine Creek, Alta.; Miss Anna, Didsbury, and William, McGill University, Montreal, also 9 grandchildren. All of the immediate family were present at the funeral which was held on Friday Jan. 25th in the Evangelical Church, Didsbury. The service was very largely attended. Rev. H. E. Roppel who officiated, used for the funeral text II Tim. 4: 7-8, "I have fought a good fight, I have finished the course, I have kept the faith, etc." Rev. C. J. Hallman was also present and assisted in the preliminaries.

In her last illness of nearly three weeks duration, Mrs. Mueller was patient, cheerful and fully yielded to the will of God.

In church matters she was regular in attendance, a generous supporter and a loyal devotee to the church of her choice. She was one of the first few enrolled here as members, prior to the building of the present Evangelical Church in Didsbury in 1902 and has ever since been looked up to by pastors and others as a most honorable and valuable member of the church and citizen of the country.

SPLENDID LIST OF PRIZES DIDSBURY OPEN BONSPIEL

Tuesday and Wednesday of next week will be the big red-letter days for the Didsbury Curling Club, as they are holding their first open bonspiel on these two days. Didsbury will be represented with 14 rinks, and many rinks from outside points are expected.

Splendid prizes have been arranged for by the committee in charge a list of which appears here-with:

Merchants' Competition

1. Four Leather Club Bags.
2. " Wool Coat Sweaters.
3. " Pipes.
4. " Forsyth Shirts.

Rosebud Competition

1. Four Automatic Toasters.
2. " Smoker Sets.
3. " Electric Heaters.
4. " Silk Scarfs.

Consolation

1. Four Electric Grills.
2. " Sets 21-piece Tea Sets.
3. " Burn's Premium Hams.
4. " 2-lb. Boxes Chocolates.

The prizes are displayed in the Builders' Hardware Store windows.

DIED

At Edmonton, January 24, 1929, Donovan Robert Sarant, age 4 years and 8 months, beloved son of Mr. and Mrs. Henry Sarant, Didsbury.

Minister of Education Pays Visit to Didsbury

Addresses Representative Audience In United Church On Proposed Changes in Province's Rural School System

At the instigation of the Didsbury U.F.A. No. 12, the Hon. Ferren Baker, Minister of Education for the Province of Alberta, paid a visit to Didsbury on Saturday last, January 26th, and addressed a representative audience in the new Knox United Church, on the proposed changes in Alberta's rural school system.

Walter Scheidt occupied the chair. Following a few introductory remarks by Rev. A. E. Hayes, Mr. and Mrs. J. Boorman rendered a violin and organ duet, which was much appreciated by the audience. Preparatory to the Minister of Education's address, the chairman called on A. B. Claypool, M.L.A. for this constituency, for a few remarks. The member stated that his interest was not so much in what the Minister had to say, but in being able to get the opinion of the people in this constituency and to be able to put such opinions before the House this month when it meets in session at Edmonton.

The Minister's Address

The problem, presented by Mr. Baker, presents three main phases:

(1) To ensure the full time operation of sufficient schools, both elementary and secondary.

(2) To effect a fair distribution of the cost.

(3) To improve the quality of education provided in the schools.

The first statement is apparent in the majority of small rural districts in the province.

There are numerous inconsistent irregularities prevalent in the present system of taxation. Rural school districts vary in assessed valuation from \$5,000 to \$400,000, and the rate of taxation falls as low as three mills in some districts and as high as eighty mills in at least one.

At present there are some 3,000 rural schools practicing individualistic education. The weaknesses are apparent:

1. The inability to hold ruraly the more ambitious and able teachers. Seven hundred teachers annually leave the profession, their places to be filled by seven hundred recruits. Rural teaching offers little promotion. Ten years experience furnishes little extra recognition. Many children receive their entire training from inexperienced youth or maiden.

2. It is impossible for the average school board to intelligently select the ideal teacher for a community from a sheaf of written applications. The tragedy of a very good teacher in the wrong type of school is frequent.

3. The present system lacks supervision. Inexperienced teachers and the less efficient need more than inspection—they need helpful super-

(Continued on Page 1)

NEW CHURCH ASSET TO TOWN

The Dedication Services held in New Knox United Church Sunday, January 20th exceeded expectations so far as the size of the congregations was concerned. Every available space was used for seating and a Dedication offering of about \$450, was a marked expression of good-will and thanksgiving.

Rev. Principal Millar of United Church College, Edmonton, came down specially for the occasion and preached two helpful sermons, taking for his subject in the morning, "What are the Characteristics of a True Church," and in the evening "The Background of all Life—God." Special music was given by the choir.

Dr. Millar complimented the Minister, Rev. A. E. Hayes and the people upon completing such a fine structure. He said it was the fourth church he had dedicated lately, but he could safely say New Knox, from a standpoint of architecture was the best.

The Church Office at Toronto furnished the first sketch and this was revised by a Calgary architect, and special features added. Few know that the building is thoroughly insulated and even when the temperature was 45 below last Sunday, the auditorium was as comfortable as could be desired, so the first drawback of some churches—the tendency towards coldness—is overcome.

There is a triple ventilating system, which insures fresh air even when the building has a capacity congregation. The choir loft is large. The pulpit and extended railing can be quickly removed when the occasion demands. The pews are of curved backs and shaped seats and of handsome design and the whole of the interior, which is of fir is of a pleasing and artistic effect.

The well-lighted, full-sized basement is an asset, especially on an occasion like Monday night when the Ladies Aid served such a sumptuous

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

This Changing World

Annual stock-taking is a wise procedure on the part of every individual and nation; it is absolutely essential in the case of the man in business if he is to make a success of the enterprise in which he is engaged. This is true whether the man be the manager of a large industrial concern, or the owner of a small country store. It also applies to the man who is engaged in the business of farming because to succeed he must know where he made money and where he lost it; he must find the leakages before he can plug up the holes.

Any such stock-taking should include a study of the trend of business throughout the country and the world to the extent that such study is possible. Especially, in view of the close commercial relations existing between them, and the fact that they do a larger business with each other than with any other country, the people of Canada and the United States should understand not only what is taking place in their own country, but also in the neighboring country. For these reasons recent analysis of United States business in 1928 as compared with 1927 are of value to Canada.

These comparative studies reveal some startling developments and trends in business. For example, soft coal output decreased 6.1 per cent. and petroleum production 0.9 per cent. while the output of electricity increased 9.2 per cent., thus indicating the rapidity with which electric power is overtaking steam power. Railway carloadings dropped 0.8 per cent. and gross railway income by millions of dollars, but freight movement by motor trucks progressed over a larger mileage, and mail and express movements were heavier, while the output of automobiles increased 24 per cent., thus showing the modern trend to more rapid transportation of commodities.

Department store sales increased 1.1 per cent., mail order sales jumped 14.9 per cent., and chain store sales 17.1 per cent. On the other hand, wholesale trade fell off 1.5 per cent., indicating steady progression in more direct selling from producer to ultimate consumer. Possibly one of the effects of this development is found in the increase of 1.2 per cent. in the number of business failures, notwithstanding the year was one of great production, large constructive development and prosperity.

The modern trend in the larger use of electricity, more and still more and efficient machinery, and more direct and rapid transportation is emphasized by the fact that, in a year of amazing growth in production and construction, employment decreased 3.3 per cent. In contrast with this is the fact that union wage rates were 0.4 per cent. higher, indicating that, while there was decreased employment, those in employment were paid slightly higher wages.

The buying power of United States farmers rose 6 per cent., revealing an improvement in the agricultural situation. Business profits rose 11 per cent., savings bank deposits 8.9 per cent., life insurance sales 5 per cent.

The above figures would seem to indicate certain factors and lessons deserving of earnest consideration by all business men. The fact that business profits rose 11 per cent. but business failures increased indicates that the business man who keeps himself informed of, and adjusts his operations in conformity with, changing conditions succeeds while the uninformed and ultra-conservative loses out. To the artisan, clerk and working man the figures seem to say that in this machinery age the man with knowledge and initiative, in a word, the efficient man, is in demand and at even higher wages, while the inefficient finds increasing difficulty in securing work.

The same economic forces are at work in Canada as in the United States, and the same tendencies are to be noted, the only difference being that this country is not so highly industrialized and has much greater natural resources still in an undeveloped state calling for manual labor. In the commercial world, especially in the retail merchant class, the problem of the mail order house, the chain store, the consolidation of merchandizing in the hands of great concerns, and the allied problems of transportation and distribution, are becoming quite as acute, and if he is not to go under the small dealer must meet these changing conditions. He cannot do it alone, single-handed, but his chances of success are good through co-operation.

In the past few years, and particularly in 1928, a great change has taken place on our western Canada farms through the introduction of the combine, the motor truck, and the building of good roads. Through these means production will be increased on the one hand, while less human labor will be required—that is, there is the same tendency in agriculture as in manufacturing industry. This means that, large as western farms are on the average compared with other countries, they will, as operating units, become larger, with all the changes involved. Here, too, the further application of co-operative principles and methods will make for success.

Guard Against FLU — Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerviline. The antiseptic properties of Nerviline quickly destroy the germs in the throat. Of course if the chest is sore Nerviline should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerviline will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerviline and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

Recipes For This Week (By Betty Barclay)

BAKED ORANGE CUSTARD

- 3 egg yolks
- 1 egg white
- ½ cup sugar
- Few grains salt
- Grated rind 1 orange
- ¼ cup orange juice
- 1½ cups milk

Beat yolks and white of eggs until light; add sugar, salt, grated orange rind and orange juice. Scald milk in double boiler; pour gradually, while stirring constantly, over egg mixture; pour into buttered custard cups, placed in a pan of hot water, and bake in a moderate oven until custard becomes firm. Cool, and serve with whipped cream on top, or turn out and surround with sections of orange and orange syrup.

THOUSAND ISLAND DRESSING

- 1 cup mayonnaise
- 2 hard-cooked eggs
- 2 tablespoons tomato catsup
- 2 tablespoons pimento stuffed olives
- 2 tablespoons chili sauce
- 2 tablespoons pickled onions.

To the mayonnaise add all of the other ingredients finely chopped.

Fertilizers From Trail, B. C.

Further experiments with superphosphate from the smelter at Trail, B. C., will be conducted in 1929 by the Alberta Department of Agriculture in conjunction with the Dominion experimental farms and C.P.R. experimental farms. An abundant quantity of this fertilizer will be available to meet demands.

NEW HEALTH FOR TIRED-OUT WOMEN

Found in the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Anaemia comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitation of the heart, headaches, frequent backaches and often disturbed digestion and an inability to obtain rest at night. Cases of this kind, if neglected, become more serious, but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. These pills actually make the rich, red blood that stimulates and strengthens every organ and nerve in the body. Thus strength and activity return, the appetite improves and restful sleep is had. What Dr. Williams' Pink Pills can and will do is shown by the case of Mrs. D. B. Fanning, Seal Harbor, N.S., who says: "I was in a badly run-down condition. I was pale, my appetite was very poor, and the least exertion would leave me completely tired out. In fact I was hardly able to do much work about the house. I decided to try Dr. Williams' Pink Pills and after taking a few boxes can truthfully say I had gained greatly in health and strength and was able to go about my work with no sign of the former weakness. I cheerfully recommend them to all others who may be in a run-down condition."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Galahad had his good points, but only our higher civilization could produce a drug clerk who says, "Thank you" after selling a postage stamp.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Rover's Punishment

Nurse (suspiciously): "What have you been doing, Miss Ellen?"

Ellen: "Rover's eaten my dolly's slippers, so I've just been punishing him."

"How?"

"I've been to his kennel and drank his milk."

Ranching Days Recalled

The memory of ranching days in Alberta is preserved by the place-names, Staveland, De Winton, Cochran, and Stimson.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1770

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Farm Machinery Purchases

Farmers Of Southern Alberta Made Heavy Investments Last Year

According to an estimate appearing in "The Lethbridge Herald," some \$7,250,000 was spent in Southern Alberta during 1928 for new autos, trucks, tractors, combines and other such farm machinery. The classification is as follows: Automobiles and trucks, \$2,500,000; Combines, \$1,000,000; tractors, \$1,250,000, and other machinery, \$2,500,000. At harvest time a survey showed there were 551 combines and 2,250 trucks in operation on the Lethbridge railway division.

"Dad, what is influence?"

"Influence, my boy, is what you think you have till you try to use it."

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

A woman graduate of Glasgow University has become Scotland's first woman minister.

Alberta Wool

Over Fifty-seven Thousand Dollars Realized By Sheep Association.

Cheques to the value of \$57,898.57 have been sent out to members of the Alberta Sheep Breeders' association for wool shipped out and ranging in price from 24 to 38 cents a pound. The wool was shipped to the Canadian Co-operative Wool Growers, Toronto, where it was graded under government inspection.

Mothers Value this Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

"All men are born free and equal!" "Yes, but some get married."

Use Minard's Liniment for the Flu.

Most men who go to court don't go to get justice, but to get even.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Appleford Paper Products LIMITED HAMILTON ONT.

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

EMBARGO BRINGS PROTEST FROM RAILWAY HEADS

Montreal.—The partial embargo placed against central European colonists by the Dominion department of immigration and colonization drew from the Canadian Pacific and Canadian National railways today a formal protest.

The decision, it was claimed in a statement issued by the presidents of the companies, will not only work distinct hardship on both transportation systems but will destroy the faith the governments, whose people are affected, have in Canada.

The companies deny they are interested in moving colonists from non-preferred countries in Europe rather than those from Great Britain or other northern European or preferred countries.

The attitude of the transportation companies was outlined in a statement issued to The Canadian Press by the railway presidents, E. W. Beatty and Sir Henry Thornton.

Will Urge Negotiation Of Trade Agreement

Chinese Nationalist League Would Develop Business With Canada

Vancouver.—Development of trade between China and Canada through the negotiation of a treaty between their government and that of Canada is a major recommendation to be voiced at the annual convention of Kuomintang, Chinese national government at Nanking, by the seven delegates from Canada. Seventy-five representatives of all branches of the Chinese National League in Canada are now holding their annual conclave at Canadian headquarters, Gore avenue and Pender street, and will elect their representatives before the sessions end Jan. 31.

An increase in the number of consuls throughout the Dominion will also be sought by the delegates from Canada. Consulates are at present maintained only at Ottawa and Vancouver.

There are 75 branches of the league in Canada, with three divisions, governing the east, middle west and west. There is a Canadian membership of more than 10,000.

New Railway Station

C. N. R. Station At The Pas Is Officially Opened

The Pas.—Another chapter in the development of northern Manitoba was written today when the Canadian National Railways' new \$750,000 station was officially opened here.

A ceremony was held at the new station, which is situated in the heart of the town. Maj. J. G. MacLachlan, district engineer of the C. N. R., turned the station key over to V. L. Smart, general superintendent of transportation, who opened the door of the station to the public.

New Senator Appointed

Ottawa.—Hance J. Logan, former Liberal member for Cumberland, N. S., in the House of Commons, has been appointed to the Senate, filling the vacancy in that body caused by the death of Senator W. B. Ross. Announcement of the appointment was made at the prime minister's office.

Canada's Record Wheat Yield

Ottawa.—Canada's yield of wheat for the year 1928 amounted to 533,571,700 bushels. This is the highest on record and the first time that Canada has harvested a crop of over half a billion bushels. This announcement was made in the crop report just issued by the Dominion bureau of statistics.

Director of Cattle Association

Brantford, Ont.—R. B. Falt, for 25 years editor of the Farm Journal, has been appointed director of extension of the Holstein Friesian association of Canada. His headquarters will be in Brantford.

W. N. U. 1770

Class B Fairs

New Dates Are Set At Meeting Held In Winnipeg

Winnipeg.—The establishment of an eastern and a western circuit of B class fairs, and the setting of dates for fairs in each circuit, was the principal result of a session of the Western Canadian Fairs association held at the Fort Garry hotel.

The Western Canada Association of Exhibitions, which comprises the class A fairs concluded their convention in the afternoon.

Archie Wilson of Saskatoon, heads the Western Canada Association of Exhibitions for the coming year, being elected president to succeed H. W. Abbott of Edmonton at the closing session. H. G. Smith, Regina, was re-elected vice president of the organization and S. W. Jones, Saskatoon, will continue in office as secretary-treasurer.

Johnny J. Jones was awarded the contract for midway shows at class A fairs.

Because the circuit of the Western Canada Fairs Association had become so unwieldy by reason of the large number of fairs, it was divided into two circuits, and the dates for fairs set as follows:

Eastern circuit—Carman, June 28 to July 1; Estevan, July 3 to 6; Portage la Prairie, July 8 to 10; Dauphin, July 11 to 13; Prince Albert, July 15 to 17; Melfort, July 18 to 20; Yorkton, July 22 to 27.

Western circuit—Weyburn, July 8 to 10; Assiniboia, July 11 to 13; Lethbridge, July 15 to 20; Red Deer, July 22 to 24; Camrose, July 25 to 27; Vegreville, July 29 to 31; Vermillion, Aug. 1 to 3; Lloydminster, Aug. 5 to 7; North Battleford, Aug. 8 to 10.

Prizes For Research

Two Will Be Given for Best Work in Cancer Investigation

London.—The grand council of the British Empire cancer campaign announced approval of an offer of two prizes of \$2,500 each, in 1931 and 1932, for the best original piece of work in the investigation of cancer carried out in the British Empire. They will be known as the Garton prizes.

The report of the Medical Research Council, summarizing the work of various research centers in 1927, claims malignant growths in the early stages of cancer can be removed by the radium treatment as efficaciously as by any surgical means.

King's Condition Improves

London.—Continued improvement in the health of the King today led the court officials to begin planning the regular levees and other functions of the season. The first levee, at which the Prince of Wales will preside, will be held at St. James palace on Feb. 26. The King's physicians have made it known that he must spend no more winters in England, and that he must seek a warmer climate for several months each year.

Believes Soviet Rule Over

Montreal.—The Soviet experiment in Russia had failed tragically and its endurance was now but a question of the patience of the Russian people, according to his Imperial highness the Grand Duke Alexander Michailovitch, brother-in-law of the late czar, cousin by marriage to King George, who has arrived here. The grand duke was certain that his countrymen would not suffer the yoke of the communists very much longer.

To Tour Europe

Ottawa.—Arrangements have been concluded here for the European tour of a large party of Canadian club members. The group which it is expected will draw members from every part of the Dominion, is to sail from Montreal aboard the liner Laurentic June 8.

Is Acting Postmaster

Ottawa.—William H. Pennock, for several years assistant postmaster at Ottawa, has been named acting postmaster. The vacancy was created by the death recently of Andrew G. Acres.

RECEIVES IMPORTANT POST

Dr. Charles R. Best, collaborator with Dr. F. G. Banting in the discovery of insulin, has been appointed to the chair of physiology of the University of Toronto. He succeeds Prof. J. J. R. MacLeod, who left Toronto to return to the University of Aberdeen.

Exhibition May Be Re-Established

Winnipeg Ratepayers Will Vote On Question In March

Winnipeg.—An exhibition which the promoters hope will take a prominent place among the exhibitions of the Dominion is being planned at Winnipeg, according to Wesley McCurdy, director, speaking to western exhibition authorities meeting here yesterday.

Winnipeg ratepayers will vote March 15 upon the question of whether or not they wish to authorize expenditure of \$850,000 for the re-establishment of the city's exhibition.

Will Take King To Sussex

London.—Preparations are going forward for the removal of King George to Bognor in Sussex as soon as his doctors decide that the time is opportune. The King will travel the 65 miles to the coast resort in a large car fitted so that he can lie as comfortably as in his bed at Buckingham palace.

Wrote For "Punch"

London.—Rudolph Chambers Ledermann is dead at Bourne End after a long illness. He was famous as an oarsman and rowing coach and also for the light, witty verses which he contributed to "Punch."

Needs Britain's Protection

Iraq Is Not Sufficiently Prepared to Defend Itself

London.—Differences between the British and Iraq governments over the ability or otherwise of Iraq to defend itself have resulted in the resignation of the Iraq cabinet under Premier Aska Jafar Pasha of Askeri.

The British authorities hold the view that Iraq, placed under Britain's protection after the war, is not yet ready to assume full responsibility for its defence.

A treaty between the British and Iraq governments in 1923 provides the responsibilities of Great Britain as a mandatory power shall be terminated when Iraq is admitted to the League of Nations.

Iraq has a population of nearly 3,000,000, practically all Mohammedans. Its chief city is Bagdad, and the territory is east of Arabia, comprising 150,000 square miles.

The real difficulty it is pointed out in London is that even the existing agreements between Great Britain and Iraq are not fulfilled particularly with regard to military and financial matters, including railways and forts.

Crosses Atlantic In Steamer's Lifeboat

Stowaway From England Had Feet Frost-Bitten During Voyage

New York.—Matthew Badderley, youthful cheese cart driver of Cheshire county, England, completed a stormy crossing of the Atlantic in a lifeboat, an uncomfortable but not a dangerous journey, for the lifeboat all the time was hanging in its davits on the liner Lancastrian. For 10 days the stowaway stuck it out through storm and cold, living on the emergency rations in his hiding place. He kept his hands warm against his body, but his feet were frost-bitten and just before the ship reached quarantine the pain drove him forth.

He collapsed while telling his story but was revived and put to bed in the ship's hospital. He will be sent back to his cheese cart.

Treating Drug Addicts

Geneva.—Noatake Sato, the Japanese League of Nations representative, has informed the international opium committee that Japan was successfully applying medical treatment to Korean morphine addicts. Out of 684 cases, 660 had been sent to hospitals and cured.

URGES BETTER FEELING BETWEEN TWO NATIONS

New York.—J. Ramsay MacDonald, former premier of Great Britain, in an article under his name in the current issue of The Nation, Liberal weekly, makes a plea for the understanding public men of the two nations "to meet and drag from the obscure corners of sulky suspicion the things that make difficulties between us."

The relations between the United States and Great Britain grow increasingly unhappy," he says. "A spirit is growing in the two countries which is estranging them and is encouraging a kind of squabbling criticism which destroys mutual understanding and forbearance."

"Have both of us failed to observe how easy it is to slip into war for nothing, how ready popular imagination is to be set on fire by anyone—even an almost anonymous newspaper proprietor—who cares to light a match?" he asks, then continues:

"This is no case for private and unofficial action and conference. The governments must act. Both countries ought to appoint five or six outstanding men to discuss our differences. Mayhap fresh air would clean our minds of them."

South African Tourists Greeted By Snowstorm

Students Wanted Thrill and Got It In Toronto

Toronto.—In the midst of a blinding snowstorm 37 students of South African universities arrived here in the course of their tour of United States and Canada.

"Just what we wanted," one of them exclaimed heartily, though citizens of Toronto were finding the storm troublesome.

"We were counting on Canada for the thrill of real cold weather, lots of snow and the novelty of ice hockey," T. Thorpe, Capetown university spokesman for the visitors said.

The students were the guests of Toronto university and left for Montreal for a visit to McGill university. Before completion of the tour the students will have been away from home for three months and will have travelled 25,000 miles.

Ratifies Kellogg Treaty

Action of Lithuania May Affect Dispute Between Russia and Poland

Kovno, Lithuania.—The Lithuanian government ratified the anti-war Kellogg pact.

Ratification of the Kellogg pact by Lithuania has significance in its bearing upon negotiations between Russia and Poland for a special protocol applying the pact in a localized sense to the states that touch the western frontier of Russia. Poland and Lithuania have been at odds over frontier questions and over the ownership of Vilna, a city which Lithuania claims as its legitimate capital but which is now held by Poland.

Decline in Dairy Production

Winnipeg.—High spring feed prices and tempting offers by American buyers for dairy cows caused a falling off in total dairy production for 1928 in Manitoba, according to Alex. McKay, president of the butter manufacturer's section of the Manitoba Dairy association. The year, on the whole, was successful, the president intimated in his address.

Wireless For 'Planes

Toronto.—Provincial air force planes will be equipped this year with wireless, so they may send reports to headquarters from any distance up to 400 miles it has been announced.

Report Severed Relations

Berlin.—An entirely unconfirmed report circulated in Berlin said Japan had severed diplomatic relations with Russia. The source of the report was not known.

BACK FROM THE BARRENS

Although he had not been out of the barren lands for fifteen years, George Yandle, trapper, maintained a fine sense of civilization. The first thing he did when he got to The Pas—he did not even wait until he reached Winnipeg—was buy himself a pair of spats with zippers. Yandle acted as interpreter when Count Ilya Tolstoy entertained the Eskimos in the far north. The photograph, which was taken outside the Canadian National Railways station in Winnipeg, just after the trio's ar-

rival, shows Yandle; Tolstoy, in the centre; and W. J. Casel, photographer. Count Tolstoy, who is the grandson of the great Russian writer and philanthropist, headed an expedition into the Barrens to study the migration habits of the caribou, and some unusual photographs were obtained of the immense herds. After spending a day in Winnipeg, the party, together with five Eskimo dogs, worth \$65 apiece, went to Timagami, the Ontario forest reserve, for further study of wild animals, and thence to New York.

USE WHAT YOU'VE GOT

Many people, in looking for abundance, look outside themselves for it, instead of within. "All things are yours" is still very true. Any increase that comes to us is, in the very nature of things, an increase, which seems a silly thing to say but has the merit of being true. Henry Ford is a very rich man. At one time in his experience Henry Ford had nothing—except an idea. An idea is, after all, a very real thing. It is one of the rarest things in the world. Everything springs from an idea. Ford's idea of a cheap motor car for the millions has made him one of the world's richest men, if not the richest. But he had the idea; the riches have simply been added to it.

Don't look outside yourself for the riches, the abundance, you desire, and legitimately desire. Use what you've got. You've got something. Everybody has. Perhaps it is just a crazy idea, like Henry Ford's idea appeared to the wise ones of his day. But Ford is the master of millions today and they are riding in his cars. Maybe you have the ability to do one thing better than anybody else. A Canadian woman knew how to make jams, good jams. Left widowed and having a family to maintain, she started making jam and selling it to her neighbors. Then she induced neighborhood grocers to stock a little. Gradually the taste for her jams increased. The sales likewise, increase, until the whole city was her field and every grocer stocked her line. At last a big department store bought her recipes and the right to use her name and paid her what will be a competency for life for them. She used what she had; the increase followed.

You've got something. Use it. Take stock of yourself. Perhaps you can write stories or newspaper articles. Dr. Johnson said a man was a fool to write without payment. Sell your stuff. You may have an inventive mind; most lazy people have and most of us are inherently lazy. Find out what inventions are needed and invent them. Put your ingenuity to work. Capitalize yourself, your abilities, your ideas, your recreations, your ambitions.

You'll be amazed to find how rich you have been all the time without your knowing it if you will only take stock of what you've got and use it. Use what you've got and that will get you more. And if you make sure to give it out to others the very fact of giving will bring back to you the increase, pressed down, and running over. That's how Henry Ford gets it because he idealized his little car which was only an idea once, and gave it to the world. Use what you've got.

IT TAKES ALL KINDS OF PEOPLE TO MAKE A WORLD

Yes it surely does, and it takes all kinds of people to make up communities.

Some want to help push a good thing along, others want to hold back. They want to "let George do it" when it comes to doing something for the good of the community or for an industry.

There are those who wish to profit at the expense of other folks. They are perfectly willing to take higher

LOCAL & GENERAL

Mrs. H. W. Chambers will be at home to friends on Friday, February 1st, from 3.30 to 5.30 p.m.

William Haines in "Brotherly Love," at the movies, Saturday, February 2nd.

The local W. I. will meet at the home of Mrs. Jas. Clarke on Fri., Feb. 8th.

Mrs. O. I. Harmer was a business visitor to Calgary Thursday last.

Mr. Ed. Ford left on Monday for Calgary where he is attending the General Motors Chevrolet special instruction course.

Snell & Carter, Registered Optometrists, Red Deer, will be in their office over the Royal Bank on Monday, February 4th. 04-2c

The Pioneer Office is in need of a Dec. 20th issue of this publication for file purposes. Would anyone having such a copy please advise us.

The Auction Sale posters out advertising Mr. Alex. Hendry's Sale on Feb. 20th should read Feb. 21. The advertisement for this sale as well as others appears on the back page.

The Sinclair rink which attended the Calgary bonspiel last week won fourth prize in the Robin Hood Flour event. The rink consisted of Kendrick, Johnson, Edwards, Sinclair (skip).

The monthly meeting of the Young People's branch of the W. C. T. U. will be held at the home of Mrs. Cunningham, Tues., Feb. 5th at 8 p.m. This is the Frances Willard memorial meeting at which Mrs. Roppel will be the main speaker. Come girls and bring a friend.

The Musical Eckardts, Hand-Bell Ringers and variety entertainers, will appear at the Opera House on Wednesday evening next, Feb. 6th. The company includes several new performers this season and they promise an entire change of program. Since T. Eckardt's death, three years ago, the business has been carried on by his two sons, Gordon and Bernard. They still play the bells, glasses, etc., but have added many new features. The Company's orchestra will furnish music for dancing after the performance.

price for their milk, for instance, but they are not willing to put up their share to bring it about.

We folks who believe in doing our share, and in paying our way, must never let the actions of the other fellow keep us from doing the things we know we ought to do. We get a satisfaction which he cannot enjoy.

And we have noticed, too, that as we go through life the fellows who are progressive, willing to pay their way, somehow get ahead faster than the other kind.

ADVERTISING

The man who says he does not read advertising, gets up in the morning to the tune of a Big Ben alarm clock, takes off his Faultless pyjamas, dons his Munsingwear, slips on his Holeproof Hosiery, throws himself into his Leishman shirt, grabs an Arrow collar, rushes into the bathroom and takes his Gillette razor and Colgate shaving soap, completes his shave after washing with a cake of Ivory, and then stampedes to the dining-room for his breakfast of Aunt Jemima's pancakes and Malkin's coffee. He lights a Lucky and hails a Yellow Cab to take him to his office.

After reading his mail, he dictates his letters to a girl who takes a few sheets of Hammermill Bond and writes upon her L. C. Smith. By this time it is only 9:30 in the morning, and he tells an advertising solicitor at 9:45 that he does not believe in advertising, nor does he ever read advertisements, while the fragrant aroma of Spearmint Chewing Gum exudes from his mouth.

Show me the man who never reads advertisements and I will show you a man who never listens to a good story, or lifts an eyebrow when passing a beautiful woman. He lies in a nice casket with a little inscription "At Rest" above him.—Vandergrift, (Pa.) News.

MINISTER OF EDUCATION PAYS VISIT TO DIDSBURY

(Continued from Page 1)

vision. Much money is wasted to ratepayers, through the lack of a little intelligent guidance to youthful teachers who lack merely experience.

4. There is no effective means of eliminating the inefficient. Teachers are too often merely shuffled round, the inefficient finding a position readily in another quarter.

The Proposed Solution

The school district, as at present constituted, will continue to be the basic unit of organization. Its present properties, assets and liabilities will in no way be affected. The local board will retain all its present powers and duties, except with respect to the engaging and paying of teachers.

Divisions: Larger units of administration will be established, by grouping the 3,000 rural districts of the province into 20 divisions of approximately 150 districts each. Each division to have a board of five directors elected by the ratepayers by wards. These boards will engage, place and dismiss the 150 teachers in their division. Each division will have a superintendent and two assistants or supervisors, the superintendent advising the board. The superintendent will be a representative of the Department of Education, appointed and paid by the government. The supervisors will be appointed in the same way and paid out of government grants.

In the matter of paying the rural teachers' salaries, the 20 divisions will unite forming one taxing area embracing all the rural districts of the province. There will be a general board, composed of 20 chairmen of the 20 divisional boards. This general board will fix the rate of pay for all rural school teachers, draw up its annual budget, fix a common mill rate for the entire area, and requisition the money from the municipal authorities. The levy will be made on the equalized assessment for supplementary revenue purposes, and the machinery now in use will be employed for collection. Every taxpayer will receive but one tax notice.

For the payment of teachers' salaries, at the present mill rate, and meeting all expenses of the general board and divisional boards, it is estimated that there would be required a sum equal to a levy of seven and one-half mills on the total assessed valuation of the general taxing area.

Local boards will be elected in the same manner as at present; divisional boards nominated from the local boards at a convention to which one accredited delegate has been sent.

Results Which Might Be Expected

1. The full time operation of all elementary schools.

2. Better provision for secondary education. Pupils who can most conveniently attend town and village schools will continue to do so by arrangement with the town boards, and

A Bid for Freedom

THE trend of business is toward amalgamation and centralization—building up vast organizations through combinations of many small ones. In the face of this development the farmer as a single unit has found himself isolated, helpless and working at a disadvantage.

The first step taken by producers to remedy their position was the formation of producers' co-operatives, of which the Wheat Pool is the most notable example. In the Pool the strength of unity has been demonstrated time and again.

For the protection of himself and his family, and for the advancement of Agriculture in general, every wheat producer in Alberta should join the Alberta Wheat Pool.

There is no question but that the Wheat Pool has corrected abuses, narrowed grain trade profits, stabilized markets, and lessened disastrous speculation for the benefit of ALL wheat growers in Canada.

Undoubtedly the Wheat Pool has paid higher average prices to its members than the Grain Trade has paid to non-Poolers.

The Pool elevator system, operated on a non-profit basis, has given its patrons service at cost, fair weight and grades, and a measure of protection never before accorded.

To Those Who Have Not Yet Joined the Wheat Pool:

ARE you going to build and maintain private grain and elevator systems forever and provide abundant profits for stockholders year after year?

OR are you going to join the Wheat Pool ranks and work for your own interests and the interest of your Pool neighbors?

The Alberta Wheat Pool

Lougheed Building, Calgary

for every pupil so authorized to attend from the rural area there will be paid from the general school fund a reasonable fee, based on the cost of the service rendered.

3. A fairer distribution of the cost of education.

4. Making rural teaching more attractive, financially and otherwise; through supervision; greater stability in holding teachers; the elimination of the inefficient.

5. More intelligent placing of teachers.

6. Removal of local friction, resulting in greater harmony.

7. Elimination of boundary disputes and simplification of tax collection.

The minister stated further that these proposals were the result of careful study of remedies which had been applied in other places, and of

particular conditions prevailing in Alberta. In presenting these proposals in the form of a bill, at the approaching session of the Legislature, there is no thought of attempting to force hastily upon the public a system that does not commend itself to the judgment of the majority.

A number of interesting questions were asked of Mr. Baker following his address. The short discussion that followed was indicative of the interest being taken by the local board and outlying district boards in the Minister's proposals. Especially enthusiastic were a few remarks at this juncture by Rev. Mr. Hayes.

Following another violin and organ selection by Mr. and Mrs. Boorman, Hanlan Walsh proposed a motion of thanks to the Minister. The gathering dispersed after the singing of the National Anthem.

ITEMS OF INTEREST

Although the Canada Colonization Association only started to operate in Ontario last February, it has already placed 139 families on 5,671 acres of Ontario farm lands, according to a statement made recently in Toronto by W. C. Kent, Hamilton, provincial representative of the association. It was his opinion that British settlers found it easier to start in Ontario than elsewhere.

Some 200 of the thousand head of buffalo in Elk Island Park, east of Edmonton, have been slaughtered during December in order to keep the size of the herd within the carrying capacity of the park pasture. It is expected that most of the meat thus secured will be shipped north in the form of pemmican to provide food for Eskimo inhabitants of the Northwest Territories as a result of the growing demand from this source following the trial shipments made last year.

Supplies for the 150 inhabitants of the lonely little island of Tristan da Cunha in the southern Atlantic not far from St. Helena are being collected by Montreal chapters of the I.O.D.E. and will be delivered in February by the Canadian Pacific liner "Duchess of Atholl". This great liner, making a cruise of South America and Africa, is one of the few vessels to call at this isolated point. The visit is one of the unique features of the cruise for the passengers and the event of the year for the inhabitants of the island.

NEW CHURCH ASSET TO TOWN

(Continued from Page 1)

supper. The kitchen part of the basement is designed so that a large crowd can be quickly taken care of, as was lately demonstrated.

There is a room set aside for the minister's study, with bookshelves for about 800 books. These shelves are already filled. There is a choir room and a room at the back of the church which has a variety of uses. This latter is heated by a separate unit when the whole church is not required. For smaller meetings during the week it is appropriate.

Mention should be made of the volunteer labor given and also the generous subscriptions. A detailed report will be published later.

It is to be hoped that people far and near will make use of the opportunity this church offers for spiritual advancement. There is an attempt to make the Sunday School 100 per cent efficient, and co-operation of all is earnestly asked and needed.

WORLD HAPPENINGS BRIEFLY TOLD

The Turkish assembly ratified the pact for renunciation of war and the government instructed its ambassador at Washington to sign the pact.

The Rev. Dr. S. Parkes Cadman, pastor of Central Congregational church, Brooklyn, says he has been invited to deliver the sermon at the opening of the League of Nations conference at Geneva on Aug. 25.

Premier Stanley Baldwin announced in the House of Commons examination will be held into the 60-year-old project for a tunnel under that a comprehensive non-party re- the English Channel.

Several persons were killed and a thousand buildings destroyed in the populous Greek district of Tavala in Constantinople by a terrific fire whipped by a fierce wind which laid waste an extensive area.

Japan has notified the League of Nations that manufacture and distribution of narcotics in Korea had been taken out of the hands of private companies and made a government monopoly.

Every effort will be made to secure for Canada the winter sports of the Olympic games in 1932, it was decided at a meeting in Toronto of the executive committee of the Canadian Olympic committee.

"Flu" Is Here In Dead Earnest

SICKNESS IN NEARLY EVERY HOME IN WESTERN CANADA

Watch your little cold—beware of everyone who is coughing or sneezing—avoid crowded places, above all stop your grippy cold at the beginning.

Doctors and nurses who have had long experience in handling gripple cases advocate Catarrhazone Vapor as an effective means of protection.

It is very simple to use Catarrhazone, and the whole family can enjoy its germ-killing protection at the cost of a few cents.

Put a teaspoonful of liquid Catarrhazone in a pint of water. Place this on a stove or lamp and bring the water to a boil. The vapor which rises contains the most powerful disinfectants. As you breathe this healing vapor, you kill the germs that cause colds, catarrh, flu, and gripple. Splendid for children—equally good for the parents. Far better to protect the whole family in this way than to have a houseful of sickness. All druggists sell Catarrhazone in 50c. bottles.

Edmonton Telephone System

As showing the growth of business in Edmonton, "The Journal" points out that whereas 24 years ago some 660 citizens of the then town of Edmonton voted \$27,000 for the purchase of the Edmonton district telephone system (for the use of 239 subscribers), the system has now grown to represent a capital investment of \$2,500,000, with subscribers numbering 15,000.

Experimental Farm System

Canada Has Largest System Of Its Kind In The World

The Canadian Government Experimental Farm system now embraces 27 farms, seven sub-stations, one horse-breeding station, one fox ranch, 10 plant pathological laboratories and 201 illustration stations at different points in the nine provinces of the Dominion. The system is the largest of its kind in the world.

CHILDHOOD AILMENTS

Can be Quickly Banished With Baby's Own Tablets.

The ailments of childhood are many but nine-tenths of them are due to one cause and one cause only—a disordered condition of the stomach and bowels. To quickly banish any of the minor ailments of babyhood and childhood the bowels must be made to work regular and the stomach must be sweetened.

No other medicine for little ones has had such success as has Baby's Own Tablets. They banish constipation and indigestion; break up colds and simple fevers; correct diarrhoea and colic and promote healthful sleep by regulating the functions of the stomach and bowels. Concerning them Mrs. L. M. Brown, Walton, N. S., writes:—"I cannot speak too highly of Baby's Own Tablets as I have found them excellent for childhood ailments."

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Winnipeg Newspaper Union

Baby's New Ensemble

Give the darling new babe a right start to good health and happiness by choosing the correct garments for him, and he will repay you with his smiles and coos. Style No. 221 consists of a dress with bishop sleeves, gertrude petticoat, with or without gathered ruffle, nightgown, kimono that is perforated for short sack and a bib. To complete the layette, a band, knitted shirt and diapers should be included. Nain-sook, batiste, soft lawn, muslin or cotton crepe is appropriate for all the little garments except the kimono or sack, which is usually made of cashmere, crepe de chine, flannel or fine broadcloth. A touch of embroidery gives a French appearance. Pattern for layette in one size only and costs 25 cents in stamps or coin (coin is preferred). Wrap coin carefully. Emb. No. 11127 (blue) costs 25 cents extra.

SUNDAY SCHOOL LESSON

FEBRUARY 3

THE HOLY SCRIPTURES

Golden Text: Open thou mine eyes, that I may behold wondrous things out of thy law. Psalm 119:18.

Lesson: Deteronomy 6:4-9; Joshua 1:8, 9; 2 Kings 22:8-20; Nehemiah 8:1-8; Psalm 107:14; Luke 24:25-32; Acts 17:10-12; 2 Timothy 3:14-17.

Devotional Reading: Psalm 119:105-112.

Explanations and Comments

The Value of The Scriptures, Psalm 119:11—The law of Jehovah, the testimony of Jehovah, the precepts of Jehovah, the commandments of Jehovah, the ordinances of Jehovah—all of these expressions are terms for the Scriptures of the Old Testament, especially for the Sacred Law which they contain. "The Christian Church has legitimately extended the words to the larger body of Scripture which forms the Bible." This, the Psalmist declares, is perfect, restoring the soul; sure, making wise the simple; right, rejoicing the heart; pure, enlightening the eyes—"imparting refreshment and vigor to the soul, giving new life and hope; dying eyes are glazed, a sick man's eyes are heavy and dull, health brightens them"; true, and righteous altogether.

The fear of Jehovah is clean, enduring for ever. "When among the five terms, each clearly significant of the Scriptures, the Psalmist introduces the abstract expression 'the fear of the Lord,' he must mean the awe, the obedience, the discipline and inspiration of the Book whose praise is the burden of his song" (George Adam Smith).

More to be desired are they than gold, yea, than much fine gold.

"The Word like a deep, deep mine, And jewels rich and rare Are hidden in its mighty depths For every searcher there."

Then with heart aglow, the Psalmist cries, "More to be desired are they than honey, and the droppings of the honeycomb"—the purest of the honey. "Moreover by them is thy servant warned; in keeping them there is great reward."

"If only we would obey the leadings of Christ, as the planets of the sun, our lives would be full of light and health and liberty. We should be restored to perfect health; our simplicity would be made wise, our hearts would be gladdened; our eyes would be enlightened; our poverty enriched, and our dispositions sweetened" (F. B. Meyer).

Toes Made Comfortable Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S CORN EXTRACTOR. Shoes won't pinch or hurt. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for "Putnam's" the one sure relief for sore corns.

Vancouver Grain Exports

Grain exports from Vancouver for the calendar (1928) year will exceed 90,000,000 bushels, according to Merchants' Exchange figures.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

A New York sculptress excels in carving horses out of cheese. Her horses can be melted into Welsh rarebits, later emerging as nightmares.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Royal Bank Annual Meeting

The sixtieth annual meeting of shareholders of The Royal Bank of Canada marked the close of the most successful year in the history of the bank. The report submitted showed that both the assets and the profits of the bank constituted a record for Canadian banking.

Dealing with the question of trade relationship between Canada and the United States, Sir Herbert Holt, the President, said:

"No country imports more goods from a single market than Canada imports from that country. The value of these imports during the twelve months ending September 30, 1928, aggregated 790 million dollars, a total more than 300 million dollars in excess of Canadian sales to that market during the same period. Such an unbalanced trade relationship is injurious to the national welfare of this country."

"In spite of the fact that the present trade relationship between the two countries is disproportionately favorable to the United States, there is active discussion of further tariff increases that seem likely to shut out the few competitive items which Canadians now sell there. It would seem that those who propose such tariff changes fail to realize that checks upon Canadian prosperity automatically check the volume of goods which can be brought from the United States, and that on the other hand continued improvement in Canadian conditions brings corresponding increases in the volume of goods

which they can sell us. From this viewpoint it might be considered economic statesmanship for the United States to discover means to increase their purchases from Canada, rather than to consider measures which will constitute new trade barriers."

General Manager's Address

Discussing the policy of developing the latest resources of our country, Mr. Neill said in part:—

"During the past two or three years many existing industries have been reorganized to meet the requirements of expanding business. Mergers have been effected to ensure production on the most efficient basis, and many new industries have been started. Through a number of different investment bankers who are our customers, we have had the opportunity to assist in such financing, with the result that numerous new and valuable connections have been secured for the bank. I am glad to be able to report that in every such case credits granted have been liquidated to our satisfaction, and, despite the number of new issues that have been made, we are carrying no undigested securities."

He pointed out that in this period of prosperity reserves should be built up against less prosperous times. The public has the right to expect sound leadership in government and industry and with such leadership there can be no doubt concerning the wonderful prospects that the future holds in store for Canada.

Training For The Blind

Need For More Varied Occupation Says Major Timmins

Fifty per cent. of the blindness in the Dominion could be prevented if proper measures were taken by those liable to suffer injury to their eyes while at work or play declared Major A. N. Timmins, general manager of the Canadian National Institute of the Blind at a meeting of provincial field officials at the offices in Regina.

Major Timmins is touring the country to observe the work of the institute and in his short talk pointed out the need of an intelligent and intensive training for the blind. He declared that with such training the blind could work at almost any occupation besides the standard basketwork, reed work and broom making. In Saskatchewan alone, he said, some 150 blind persons would thus be enabled to earn their own living and not be a burden on society.

He said that over \$100,000 worth of goods made by the blind had been sold in this province in 1923 by the sales department through women's organizations. Of this sum the broom sales amounted to \$25,000. The total sales for the Dominion and Newfoundland totalled one million dollars.

Cattle In Fine Condition

Owing to the light snowfall around High River, Alberta, this year, the cattle and horses on the Prince of Wales' ranch and on other ranches in the vicinity are in excellent winter condition, and it has not yet been necessary to do any feeding, according to W. L. Carlyle, manager of the E. P. Ranch.

Help for Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Revenue From Poultry

In 1913 revenue from the poultry industry in Alberta amounted to \$2,250,000. In 1927, 14 years later, revenue from this source was \$10,093,600, according to the poultry commissioner for Alberta.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

"You naughty child! Such good soup! I wonder how many children would be glad to get half that."

"I should, for one, mother."

Minard's Liniment for Coughs and Colds.

Germany Buys Douglas Fir

Canadian Product Seems to Meet Requirements for Special Purposes

Douglas fir because of its superior quality in clearness and strength, is the leading Canadian product to find a sale in the German market. It is increasingly substituting for pitch pine, because of the latter's gradual increase in price, while at the same time it has to compete against supplies from Washington and Oregon. It appears regularly to fill requirements for special purposes, being used for interior finishing, decking and deck boards, while plywood and logs are also imported when price is competitive.

Roofs Made Beautiful

A roof was once something to keep out the rain. Now with the growth of air travel it is becoming something to gaze upon with a sense of the beautiful, and architects are paying attention to this new development in their art. The proof of the roof is going to be in the viewing.

Speeding around corners is a straight road to the hospital.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhoea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

CRUMBLY TEETH

Help your children to have sturdy bodies, sound bones and strong teeth. Give them **Scott's Emulsion** rich in vitamins. It serves the needs of childhood equally as well as it does grown people.

CHAPTER XIII.—Continued.

Connie raised her head. "Oh, no, I don't think so, Andy; that must slip on," she objected.

Andy made a pretence of studying the article in question.

"Yes, yes, sure! That's right! that's right!" he conceded quickly.

Andy's pipe was now sending out billows of acrid smoke. Connie moved beyond the smoke screen. Much to Andy's relief, she sat for a moment silently studying the advertisement. When she raised her head there was a look of wistful yearning in her blue eyes.

"Oh, Andy," she said dreamily, "it must be lovely to feel those soft silky things next your skin."

"I'm—I'm sorry, Connie," stammered Andy, "but I've a roast in the oven—I—"

"Just a minute Andy," she pleaded, "there is something else I want to ask you." She sorted the papers for a moment.

"God 'elp me, what will it be now?" thought Andy, as he braced himself for the next question.

"Andy, what is a camisole?"

A look of profound relief crossed the little Australian's face.

"A camisole," he explained with an air of wisdom, "is a fish. It's a—"

He was interrupted by Connie's peal of laughter. "Oh, Andy," she cried, "you're a funny man!" She turned and ran laughing down the hill.

"Strike me lucky!" exclaimed Andy as he mopped his brow. "It's enough to make a blighter's 'eart bleed. The poor motherless kid comin' to a bloke like me to ask such questions."

He watched Connie as she slowly ascended the trail, still studying the magazine pages.

"But 'ow the 'ell can I 'elp 'er?"

He pondered deeply for a moment, but, seemingly unable to answer the question, shook his head sadly and turned to his duties.

Fortunately for Janet's peace of mind, none of her friends had recognized in the photograph of the new champion of Canada the handsome young man they had met at her home. They were puzzled by her decision to spend a holiday in the wilds until she casually mentioned that Mr. McLean was arranging for their entertainment, and she ac-

cepted with a smile the sly teasing that followed.

The party arrived by special train a day earlier than originally planned, and as Janet stepped to the platform Donald was for a moment disconcerted by the warmth of her greeting and the softness in her eyes as they rested on him.

That afternoon Connie came riding down the hill holding in her hand an enormous bouquet of Alpine flowers. She leaped from her horse and ran blithely around the corner of the big building. Andy, dressed in white coat and hat, came smilingly forward to meet her.

"Andy, here are some rare flowers Dad sent for—"

She ceased speaking abruptly as Donald, leading Janet and her friends from a tour of the kitchen, came through the door.

Donald's face lighted with a glad smile as he saw Connie.

"Miss Rennie, I want you to meet Miss Wainwright."

Connie's face burned with embarrassment as all eyes turned toward her, and the mass of wild flowers held crushed to her breast quivered as though shaken by a breeze. She glanced about her quickly, strongly tempted to flee the spot.

For a moment the society belle and the girl of the mountains eyed each other silently. Janet stared at Connie as if she were some strange creature unclassified by science. Connie for the first time was gazing on a stylishly-clad member of her own sex. Janet's dress of white silk shimmered in the sunshine, and her broad-brimmed white hat, with lining of pale rose, gave to her beautiful face a ruddy glow.

Connie's eyes roved in admiring awe from the neat high-heeled shoes to the silken hose and skirt, and then to the flowered hat set jauntily on thick shining coils of dark hair.

There was a certain dewy freshness, a native frankness, about the girl of the woods that made Janet appear artificial. Their eyes met, and Connie's lips parted in a timid smile revealing two rows of perfect milk-white teeth and forming two tiny dumplings in her brown cheeks. Her lonely heart longed for the friendship of this wonderful girl, but the smile quickly faded when she saw that Janet's eyes remained cold and appraising.

Janet scrutinized Connie's faded blue overalls and coarse cotton shirt, which, even though loose and ill-fitting, could not conceal the graceful lines of the childish figure. Confused by the cold reception, her eyes wide and misty with a hint of pain, Connie turned quickly away.

Moving with the easy grace and freedom that an empress might envy, Connie walked to the side of her cayuse, and with characteristic bird-like motion sprang to his back. Her moccasined feet struck his sides, and with ears flattened Pegasus leaped forward with a speed that sent Connie's hair streaming. His spurning hoofs sent a cloud of dust in their faces, then horse and rider went tearing down the hill.

Janet stood staring after the flying rider, a look of blank astonishment on her face.

Connie's visits to the mill ceased, but from the highest point on the bluff she watched the merry-makers with keen interest as, dressed in natty riding costumes, they rode their horses, disported themselves in bathing-suits on the sandy beach, paddled the lake in light, graceful canoes, or chugged about in the shiny white motor-boat. For two evenings she sat with a feeling of dreary loneliness while Donald and Janet floated on the placid lake in one of the tiny canoes, their subdued voices and gentle laughter coming up faintly from below.

During the evenings she spent with Donald, Janet was assailed by fleeting emotions in which she tried to define her attitude toward him. She felt that the time was not far distant when some definition would be necessary. In a number of artful ways she had tried, but without success, to lead him to talk of himself. When she put a direct question she saw the lines about his mouth tighten, and his reply carried a tone of such unmistakable rebuke that her face reddened and the subject was instantly dropped.

On the night before Janet's departure a dance was arranged, to which the clerical staff of the Cheakamus Mill was invited. Gillis promised a special feature on the programme in the form of an old-fashioned square-

COUGHS-COLDS
are often the forerunners of serious complications, trouble and expense. Don't allow your horses to be laid up when you need them most. dance with his "red-shirts" as the performers.

All that day the skies drizzled continuously; lake and mountain were hidden under a heavy mist. The inclement weather did not dampen the ardour of the merry crowd, who, in silken and oilskins of every description, gathered flowers and trees to decorate the big dining room that was to be used as a dance-hall.

That night, lights gleamed from every window of the big room, which had undergone a sudden transformation. The walls were one mass of wild flowers, and on the beams overhead small cedars and jackpines stood upright in rows, adding a pungent odour to the air, already burdened with the sweet smell of wild flowers. The music of the phonograph flowed out of the open door to vibrate softly through the dripping trees.

Connie learned of the dance, and after dark she slipped quietly down into the valley. She crouched by the open window, heedless of the rain dripping from the eaves, her eyes glued upon the enchanting scene within. She saw Donald and Janet gliding across the floor, and she marvelled at the grace of their movements. The hum of talk, the constant ripple of feminine laughter, the rustle of silken skirts, were all foreign to Connie. She felt a touch of intense and utter loneliness, like a stranger in a strange land.

Janet seemed to have thrown aside her cloak of reserve; she brimmed over with an unwonted gaiety, but at times her big brown eyes held a troubled look as they rested on Donald.

Gillis's "red-shirts" filed in to give an exhibition of old-fashioned dancing. Half the men wore handkerchiefs tied about their arms to indicate that they were impersonating ladies. Blackie played the violin, while "Fightin'" Jack's roaring voice did the "callin' off." Gillis informed the company that Blackie "didn't know a note of music from a post-hole." But what he lacked in technical knowledge was made up in the immense volume of sound he

produced from the instrument, and the speed he set for the whirling dancers to follow soon had them dripping with perspiration. There were shouts of Homeric laughter, big feet thumped the floor as they grated through the intricate steps of the quadrille, and above all sounded the hoarse voice of "Fightin'" Jack in the colorful jargon of "callin' off."

"Birdie jump out and Jackie jump in;

Jackie jump out and give Birdie a swing.

All the men left; back to pardners; And grand right and left.

Chickadee right and pack-rat left. Meet your pardners and all chaw hay.

Gents sashay and put on style, Re-sashay and with a little more style,

Little more style, gents, little more style."

At the finish the girls loudly applauded the efforts of this picturesque crew, and after a short breathing spell they again took the floor and danced until sheer exhaustion forced them to quit. Mopping their dripping faces with big red bandanas, they trooped boisterously outside.

Near midnight the rain ceased, and as Donald walked with Janet to her cabin the moon came suddenly from behind a dark wall of clouds to set the lake sparkling under its soft light.

"Too wonderful a night to sleep," said Janet softly.

"Shall we walk to the lake?" asked Donald.

She nodded assent.

They stood near the edge of the lake in the light of the moon and looked across at the towering snow-fields etched against the star-spangled sky. There were lights still shining from the big room they had just vacated, and the night watchman's lantern bobbed jerkily as he made his rounds. Across the lake the light from the trapper's cabin shone on the calm surface of the water. The faint, weird call of a loon wafted to their ears was echoed and re-echoed in soft cadences from the surrounding hills. A faint breath of wind came out of the rain-washed forest, laden with the sweet perfume of earth and flowers, and caressed their faces like loving fingers. Donald took a deep breath that seemed more like a sigh.

Miaard's Liniment prevents Flu.

About the only thing a man gets free in this world is criticism.

Keep a Box Always Handy!

Zam-Buk provides an ever-ready and reliable first-aid for injuries. It is also unequalled as a soothing, speedy remedy for obstinate and deep-seated skin disease, poisoned wounds, ulcers, piles, etc.

Within every box of Zam-Buk are stored the most valuable healing, soothing and antiseptic properties known to Science. Its unique herbal composition and its absolute freedom from animal fats and mineral drugs make Zam-Buk the safest and best dressing for skin troubles of all kinds.

Get a 30c box of this great herbal healer from your druggist or dealer today, or ask Zam-Buk Co., Toronto, to mail FREE TRIAL SAMPLER.

**Little Helps For This Week**

Now are we sure that Thou knowest all things.—John xvi. 30.

Only God knows the trials that we bear.

The weary longing for a different fate.

The daily struggle and the anxious care,—

He knows, and we can wait.

Only God knows,—we have no want beside!

Our Father watches o'er us from above;

We feel our weakness, but His hand will guide.

He knows, and He is Love!

—Mary Dickinson

Trust him implicitly, submit to Him cheerfully, and you will find that all shall be well; that more grace will be given you; that the heavier the trial the larger will be the blessed measure of the strength. The Shepherd is leading you in the right way to His own blessed fold. Leave it all to Him.

—Alexander McKenzie

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. **WINDOLITE** is supplied in rolls any length but in one width of 36 inches only. A square yard of **WINDOLITE** weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved **WINDOLITE** requires no varnish. **WINDOLITE** is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use **WINDOLITE** and let

**CUTICURA HEALS LARGE PIMPLES**

Caused Itching Burning, Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and scaly, while others were just red and festering. They caused an itching, burning sensation, also disfigurement."

"After using scores of remedies for over two years, with but little results, I sent for a free sample of Cuticura Soap and Ointment. I was so pleased with the results that I purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I was completely healed." (Signed) W. E. Blackburn, 20 Bellevue Ave., Toronto, Ont.

Use Cuticura to clear your skin. Sample Book Free by Mail. Address: Canadian Depot: "Stouffville, Ltd., Montreal." Price, Soap 25c. Ointment 25c and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

WHEAT POOL NOTES

T. Cleveland of Delacour, who raised over 50,000 bushels of wheat last year, has signed a Wheat Pool contract. He will seed 4,000 acres this year.

When the two cents per bushel farm storage payment came into effect on January 16th, the receipts at Alberta Pool elevators almost doubled for a considerable period; 200,000 bushels a day were received for some considerable time.

Scores of meetings have been held by Alberta Wheat Pool field service men throughout the province. Every phase of the Pool movement is open for discussion at these meetings.

Great interest was taken in the hearing held by the Grain Commissioners on the question as to whether or not Pool members can direct their grain through line elevators to Pool terminals. A. A. McGillivray, solicitor for the grain dealers, held the Pool member had relinquished this not deprived himself of this right maintained that the Pool farmer had M. M. Porter, Alberta Pool solicitor, right when he signed a Pool contract given under the Canada Grain Act Decision was reserved.

E. B. Ramsay, manager of the Canadian Wheat Pool, was in Calgary for several days conferring with the directors of the Alberta Pool. Mr Ramsay addressed a Pool meeting at Olds on the night of Friday, January 25th.

ROD AND GUN

Replete with yarns and articles on all topics of outdoor life, the February issue of the national sporting magazine, Rod and Gun and Canadian Silver Fox News has just appeared. Among the many authoritative contributors in this month's issue are the well known names of Bonnycastle Dale, Robert James, William MacMillan, J. W. Winslow, W. C. Motley, C. S. Landis, G. P. Sladen and M. U. Bates, whose articles offer splendid pictures of hunting and fishing and life in the open. There is also a splendid article on wolf trapping by C. F. Gillham.

The section devoted to the silver fox industry is full of up-to-date and informative material concerning the ranching of these valuable fur bearers.

Improved Farm

FOR SALE

Containing 636 acres N.W. 1/4 Section 16, N.E. 1/4 Section 17 and the S. 1/2 of Section 17, all in Township 31, in Range 3, W. 5.

This property is situate 10 miles west of the Town of Didsbury, on the C.P.R. line Calgary to Edmonton.

CULTIVATION: 345 acres cultivated and the balance of the land can easily be broken. The soil is black loam with clay subsoil. All fenced and cross fenced.

BUILDINGS: Frame house, bungalow type, 16x22 and 14x36, valued at \$4,000; frame stable 16x50, with loft 10x16; frame barn 20x30, with full loft; granaries 10x12x18 and 14x16x7; hen house 14x18; and garage.

The projected line of the C.P.R. from Crossfield to run in a north-westerly direction will bring this property closer to railway.

We will sell the property as a whole; or the N.W. 1-4 16 and N.E. 1-4 17 together and either quarter of the S. 1-2 of Section 17.

For price and terms apply:
